BigData FinalProject - Cross-Evaluation Grades

Miguel Barroso → Grade: 9.75

Miguel Barroso has been a great teammate, always committed and proactive in tackling challenges. He has consistently delivered high-quality work and has been very supportive, not only handling his tasks efficiently but also assisting me when needed. His problem-solving mindset and dedication have been truly valuable to our team.

The only minor issue was that, due to his personal commitments, he could only work at very specific times. However, despite this limitation, he always ensured that his contributions were completed effectively and on time.

To sum up, his work and support have been outstanding, and I greatly appreciate his efforts and collaboration.

Sergio Queraltó → Grade: 9.75

Sergio Queraltó has been an excellent teammate, always attentive and proactive in finding solutions. Their commitment and willingness to help have been outstanding, not only delivering high-quality work in their own tasks but also assisting me whenever needed. Their support and collaboration have made a significant difference in our workload.

The only aspect that could be improved is organization, as we had multiple deadlines, and at times, managing all the tasks efficiently was challenging. However, this did not affect the quality of their work or their dedication to the team.

Overall, their contributions have been invaluable, and I truly appreciate their efforts and teamwork.
